Dear partners,

Greetings from Santiago!

My name is Josefa Ode, International Programs Coordinator at Universidad de los Andes and your main contact at the University regarding our International Short Programs.

On behalf of UANDES University I am pleased to announce the launch of our Go Programs January-July 2021!

In order to respond to the challenges and current context in which the pandemic has left us, we created a new **blended modality** to meet the needs of our students, so that they can keep having global experiences, meet people from other countries, be able to travel to Chile and be part of our culture.

- Go Politics & Leadership: This program will provide a unique experience for all those students seeking to better understand today's world politics, decision-making, and acquire leadership tools to face the challenges of mobilizing others towards the achievement of social welfare.
- Go Sustainability & Environment: In this program students will be having the opportunity to learn about climate change, renewable energies, future development challenges, and the role of youth on these topics.

Blended Modality

Our new methodology will combine online experiences with the traditional face to face classes on campus:

- The first part of the program will be in January (4th 8th 2021), our students are going to study interesting topics and will participate in group activities so that all members can get to know each other and share their knowledge and experiences on the subjects. Afterwards, they will have 5-online sessions distributed from March to June (dates to be confirmed) so that participants can continue learning about the topic they choose.
- The second part of the program will take place in July (1st 15th 2021) for two weeks on our campus at Universidad de los Andes. During this time, all the students will meet again to continue studying and training in their subjects Go Politic & Leadership or Go Sustainability & Environment.

During the two weeks of July, we are going to take all health measures so that the students can meet the Campus, Santiago, and its surroundings, there will be face-to-face debates in our auditoriums and interesting group activities. One of the best parts of these weeks is that the students will have the opportunity to visit unforgettable places inside and outside our cities like one of the many houses of our important poet Pablo Neruda, or our famous port of Valparaiso, and more!

Due to the uncertainty that we are facing on the policies and border crossing limitations we have to adapt our **cancellation policies** to left behind any concerns that students might have and be able to take the opportunity to do their international program if the sanitary conditions allow it or otherwise receive the reimbursement of the presential portion of the program.

We are thrilled to have the opportunity to offer once again our GO Programs to your students. For more information check out our website here: International Programs Chile 2021

* Deadline for registration: 27th of November 2020

Please do not hesitate to address any doubts you might have regarding our programs, we will be more than happy to assist you, Kind regards,

UANDES 2020 PROGRAMS
