Invitation to ITS e-Programs for the Spring and Fall Semester 2021

Attachments:

e-Program 2021 v2 (1).pdf

Dear Valued Partners,

Greetings from ITS Surabaya, Indonesia.

Following the success of our on-going ITS e-programs that started in Semester 1, 2020/2021, we are now announcing the call for participation to this ITS e-programs for the Spring and Fall Semester 2021 starting in March 2021 and August 2021.

As part of our efforts to maintain international collaboration as well as quality of education during this challenging time of global pandemic, ITS Surabaya had launched a series of e-programs, consisting of online guest lecture programs, collaborative online international learning, and virtual student mobility programs.

We would like to share the details of these programs with you, and it is an honour for us to invite your faculties to participate in the programs.

We cordially invite your faculties to become a speaker in any of our guest lecture programs, with details as follows:

- Global Learning Program (GLP). This program integrates guest lectures into general courses for the
 International Undergraduate Program (IUP) at ITS, such as Physics, Mathematics, Chemistry, among others.
 Students are expected to gain broader insights related to their courses. Interested speakers will typically
 deliver a 100-minute guest lecture in the early weeks of the Semester with audiences from the relevant
 classes, with the corresponding ITS lecturer moderating the event.
- Guest Lecture Series (GLS). This guest lecture series covers any topics of interest which can be related to
 any of the UN Sustainable Development Goals. This guest lecture series on UN SDG will be a weekly event
 with audiences from ITS and the general public.
- 3. **Researcher and Research Student Enrichment Program (R2SEP)**. This is a research skills-oriented program for both ITS and non-ITS audiences, and guest lecturers are invited to deliver talks on enhancing research skills. This program is planned as a fortnightly event.

In addition to guest lecture opportunities, we are also open for teaching collaborations in the form of:

- 1. **Collaborative Online International Learning (COIL).** In this collaboration, we envision that two courses from each collaborating institutions are paired and run jointly with a team-teaching scheme, with students coming from both institutions. The COIL scheme will be considered as student and lecturer mobility.
- 2. **Lecturer Mobility**. We encourage lecturers at ITS to have international exposure through teaching in our partner universities, and vice versa we are very welcome to lecturers and professors from abroad to teach together with our ITS faculty members in any of our participating courses.

For students, or partner universities seeking to collaborate in student mobility, we have the following programs:

1. **e-Exchange**. Students from partner universities can be registered at ITS as exchange students, and enrol into courses at ITS conducted online through the online learning system at ITS for one semester.

อธิการบดี เรียน

ด้วย Institut Teknologi Sephluh Nopember (ITS) ประเทศอินโดนีเซียประชาสัมพันธ์โครงการระยะสั้นแบบ ออนไลน์ ITS e-programs for the Spring and Fall Semester 2021 สำหรับอาจารย์และนิสิตระหว่าง มี.ค-ส.ค 2564 ดังนี้ สำหรับอาจารย์ที่สนใจเป็นทีมสอนมี 3 โครงการดังนี้
